RECOMMENDATION LETTER FOR PEER TUTORING

To the Peer Tutoring Program Coordinator:

It is with great enthusiasm and full confidence that I recommend Mr. Angelo Reyes (Student ID: 202201015) for the Peer Tutoring Program. Mr. Reyes has been my student in Networking (IT-NETWRK21) and Information Security (IT-INFOSEC32), achieving the highest final grade in both subjects.

His grasp of TCP/IP protocols, network configuration, vulnerability assessment, and penetration testing fundamentals exceeds course requirements. During hands-on lab activities, he was consistently the first to complete tasks correctly and immediately assisted peers who were struggling — without being asked.

Mr. Reyes demonstrates remarkable patience, excellent communication skills, and a genuine desire to see his peers succeed. I give him my strongest possible recommendation.

Respectfully,

Prof. Emmanuel Garcia, MIT

Program Chair, Information Technology
College of Information and Communications Technology
Polytechnic University of the Philippines
